KHAWAR SALEEM QAMAR

Full Stack Developer | MERN Stack Specialist

Multan, Pakistan | +923079624461 | khawarsaleemqamar@gmail.com

PROFESSIONAL SUMMARY

Full Stack Engineer with a strong foundation in **JavaScript-based ecosystems**, specializing in **MongoDB, Express, React, and Node.js**. Hands-on experience delivering **end-to-end software solutions** across diverse domains, including enterprise platforms, healthcare systems, campaign management tools, data-centric monitoring applications, and mobile backend services. Adept at transforming business requirements into **scalable APIs**, **secure authentication workflows**, and **highly responsive front-end experiences**. Known for writing **clean, maintainable code**, integrating **modern payment systems**, and contributing effectively within **fast-paced, agile teams**.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Vite, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Redux, Context API

Database: MongoDB, Mongoose ODM, Firebase Firestore, Firebase Realtime Database

Tools: Git, GitHub, VS Code, Postman, npm, Yarn

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, OAuth 2.0, WebSocket, Socket.io

Cloud and DevOps: AWS (EC2, S3), Firebase, Netlify, Vercel

Integrations: Stripe, PayPal, Google Maps API, Push Notifications, Cloudinary

PROFESSIONAL EXPERIENCE

Full Stack Developer | **Softhrive** | Multan, Pakistan

- Architected and developed 15+ full-stack web applications, websites, and backend systems using MERN stack
- Led frontend development implementing React.js with Vite, optimizing performance through code splitting and lazy loading
- Designed and implemented scalable RESTful APIs with Node.js and Express.js ensuring high availability
- Integrated secure authentication using JWT tokens, OAuth 2.0, and Firebase Auth for sensitive applications
- Developed real-time features using Socket.io for live notifications, chat systems, and progress tracking
- Implemented payment integrations with Stripe and PayPal for secure transaction handling
- Deployed applications on AWS (EC2, S3) and Firebase for scalable cloud infrastructure

Full Stack Developer | **Vtron Tech** | Multan, Pakistan

- Built and maintained full-stack web applications using the MERN stack, handling end-to-end feature development from frontend to backend
- Developed responsive and interactive user interfaces with React.js using component-based architecture and reusable design patterns
- Designed and integrated RESTful APIs with Node.js and Express.js to enable seamless frontend–backend communication
- Structured and managed MongoDB databases, writing efficient schemas and queries for scalable data handling

Full Stack Developer | **Freelance (Fiverr & Upwork)** | Remote

- Delivered end-to-end full stack solutions for international clients using the MERN stack, covering both frontend interfaces and backend services
- Designed and implemented scalable APIs, authentication flows, and database structures tailored to client-specific business requirements

KEY PROJECTS

Full Stack Web Applications

VeadooPortal - Service Booking Platform
React.js, Node.js, Express.js, MongoDB, Socket.io, Stripe
- B2B marketplace with real-time availability and instant booking confirmation
- Integrated Stripe payment gateway with PCI-compliant security

GoAbbu - Flight Booking Platform
React.js, Vite, Node.js, Express.js, MongoDB
- Flight search with one-way, round-trip, and multi-city options
- Multiple airline API integrations for price comparison

BMessentia - Learning Management System
React.js, Firebase (Auth, Firestore, Storage), Stripe
- Complete LMS with courses, video streaming, quizzes, and progress tracking
- Premium subscription system with recurring Stripe payments

Sugudeni - E-Commerce Platform
React.js, Vite, Tailwind CSS, Node.js, MongoDB, JWT
- Complete e-commerce with dynamic catalog and secure checkout
- Admin panel for inventory and order management

Website Development Projects

Nomad Nurse - Healthcare Staffing Platform
React.js, Node.js, Express.js, MongoDB, JWT
- Platform connecting dental practices to locum nurses
- Job search, profile management, and booking system

Fasal360 - Agricultural Monitoring Platform
React.js, Node.js, Express.js, MongoDB, Weather API
- Seed checking, weather forecasting, and pest detection tools
- Agricultural news feed and integrated farming product store

FoodBuddy - Food Delivery Platform
React.js, Vite, Node.js, MongoDB, Google Maps API
- Restaurant browsing, menu management, and cart functionality
- Real-time order tracking with Google Maps integration

ImFact - Campaign Management Platform
React.js, Node.js, Express.js, MongoDB, AWS
- Connects business owners with influencers for brand campaigns
- Targeted campaign creation and partnership management

Repairoo - Home Services Marketplace
MERN Stack, Socket.io, Geolocation API
- Job posting with real-time bidding and expert matching
- Admin dashboard with moderation and analytics

Frenzone - Social Networking Platform
MERN Stack, Socket.io, Cloudinary
- Social platform with profiles, posts, likes, comments, follows
- Real-time notifications and live feed updates

Backend Development for Mobile Applications

Challenge - Competitive Gaming App
Node.js, Express.js, MongoDB, RESTful APIs
- Team tournaments with 4/8/12-week competitions
- Automated winner calculation and progress tracking

Greening - Tree Health Monitoring App
Node.js, Express.js, MongoDB, Firebase
- Real-time sensor data processing for tree health analysis
- Disease detection and expert solution recommendations

Ambit - Sports Event Platform
Node.js, Express.js, MongoDB, Firebase, Socket.io, Stripe
- Event management, leaderboards, and real-time chat
- Social features, score verification, and premium features

MasCare - Nanny Booking App
Node.js, Express.js, MongoDB, Firebase
- Profile management and availability checking APIs
- Booking scheduling with verification system

SoveIt - Service Provider Marketplace
Node.js, Express.js, MongoDB, Firebase, Stripe
- Service provider matching algorithms and booking management
- Real-time notifications and secure payment processing

Frenzone - Social Networking Backend
Node.js, Express.js, MongoDB, Socket.io, Cloudinary
- Backend APIs for profiles, posts, and follow system
- Real-time notifications and media upload handling

EDUCATION

Bachelor of Science in Computer Science (BSCS)   **CGPA: 3.7 / 4.0**
